

Nice Instrumentation Introduces NEW Partnership with TURCK

Product Note: TURCK June 2007

Nice Instrumentation now offers TURCK connectors and plugs standard

Nice Instrumentation is proud to introduce our NEW Partnership with TURCK. Now all Nice Vortex Flow Meters will come standard with the latest TURCK plugs and connectors.

TURCK continues to be a leading manufacturer of products designed for factory and process automation industries.

<http://www.turck-usa.com/>

Nice Instrumentation believes TURCK upholds uncompromising standards for reliability and functionality and feels TURCK to be a great fit with our new and innovative product line of vortex flow instrumentation.

One can be confident when connecting up power, communications or remote monitoring to a NICE meter that you are getting the highest quality connectors, plugs and cord sets for your connectivity needs.

***euro
fast***

Nice Instrumentation has chosen Euro Fast connectors and cord sets as standard equipment for all field power connect and disconnect. This will allow NICE to continue to offer reliable and safe field plug and ~~work~~ connections.
